Brown & Sharpe is ideally suited to create and furnish this fine chest of high quality precision tools to meet the requirements of the average apprentice and to serve him in the future as he continues his trade in the metalworking industry.

In addition to having manufactured precision tools for over one hundred years, Brown & Sharpe has also conducted its world-renowned apprenticeship courses during this same period. Through this long and intimate experience, the requirements of the apprentice have become very well known.

This durable, good-looking chest, complete with twenty-one carefully selected basic precision tools, is a practical and essential possession for any young man starting his professional career in the metal-working field.

• THE APPRENTICE TOOL CHEST IS COMPLETE •

The tool chest is furnished complete with the twenty-one basic tools listed on the next page. It has drawers of several depths and widths and a mirror in the cover. The entire chest can be locked when the cover is in the closed position. Chest is made of fine quality oak generally preferred by experienced toolmakers and machinists.

• YOUR PERSONAL NAME PLATE FREE •

When registration card packed with the chest is returned to Brown & Sharpe, a chrome plate for the chest will be furnished with your name engraved on it.

• YOU ARE MAKING A LIFETIME PURCHASE •

The fine quality of this tool chest and the carefully selected precision tools make it a lifetime purchase. Ample space is provided in the chest for the addition of other tools which you may acquire because of broadened work requirements.

• IT'S EASY TO BUY •

If desired, ask your distributor to offer you a simple way to have the purchase financed.
